

How to care for your

HOFFMAN

CABINETS, INC.

Cleaning

- Clean spills immediately; allowing them to dry may make them difficult to remove without damaging the finish, and can damage the materials.
- Simple Green® spray cleaner is useful for wiping up greasy spills.
- Follow the instructions on the bottle.
- Keep surfaces as dry as possible.

For general cleaning

- Add a drop of dish soap to a bucket of warm water.
- Dampen a soft cloth with the soapy water.
- Dry immediately with dry soft cloth.

Things to avoid as much as possible

- Excess water and moisture.
- Direct sunlight. Finishes exposed to direct sunlight may lighten or darken over time.
- Extreme temperatures and humidity, which can cause wood to expand and contract, eventually damaging the finish.
- Lacquer thinner, products like Pledge, and scrubbing sponges.
- Bleach, ammonia, and all scouring powders.
- Abrasives of all kinds.
